IN OUR CURRICULUM

TECHNOLOGY

DIGNITY OF THE WORKER

TEXTILES

Central to the study of Textiles is the exploration of fair wages and economic justice, safe working conditions, sustainable practices, and practical applications within the Textiles Industry.

Fair Wages and Economic Justice - ensures that a fair wage is paid to those who work in the fashion industry.

Safe Working Conditions - safe and healthy working conditions, including adequate ventilation, reasonable working hours, and proper safety measures. The exploitation of children in the fashion industry.

Sustainable Practices - learning where their clothes come from and their impact on the environment, which in turn supports the well-being of workers and their communities.

Practical Applications in the Textile Industry - supporting ethical brands that adhere to ethical production standards. Educating consumers about the impact of their purchasing decisions on workers' dignity.

Live out our faith...
